

UK GDP - Relative differences from baseline

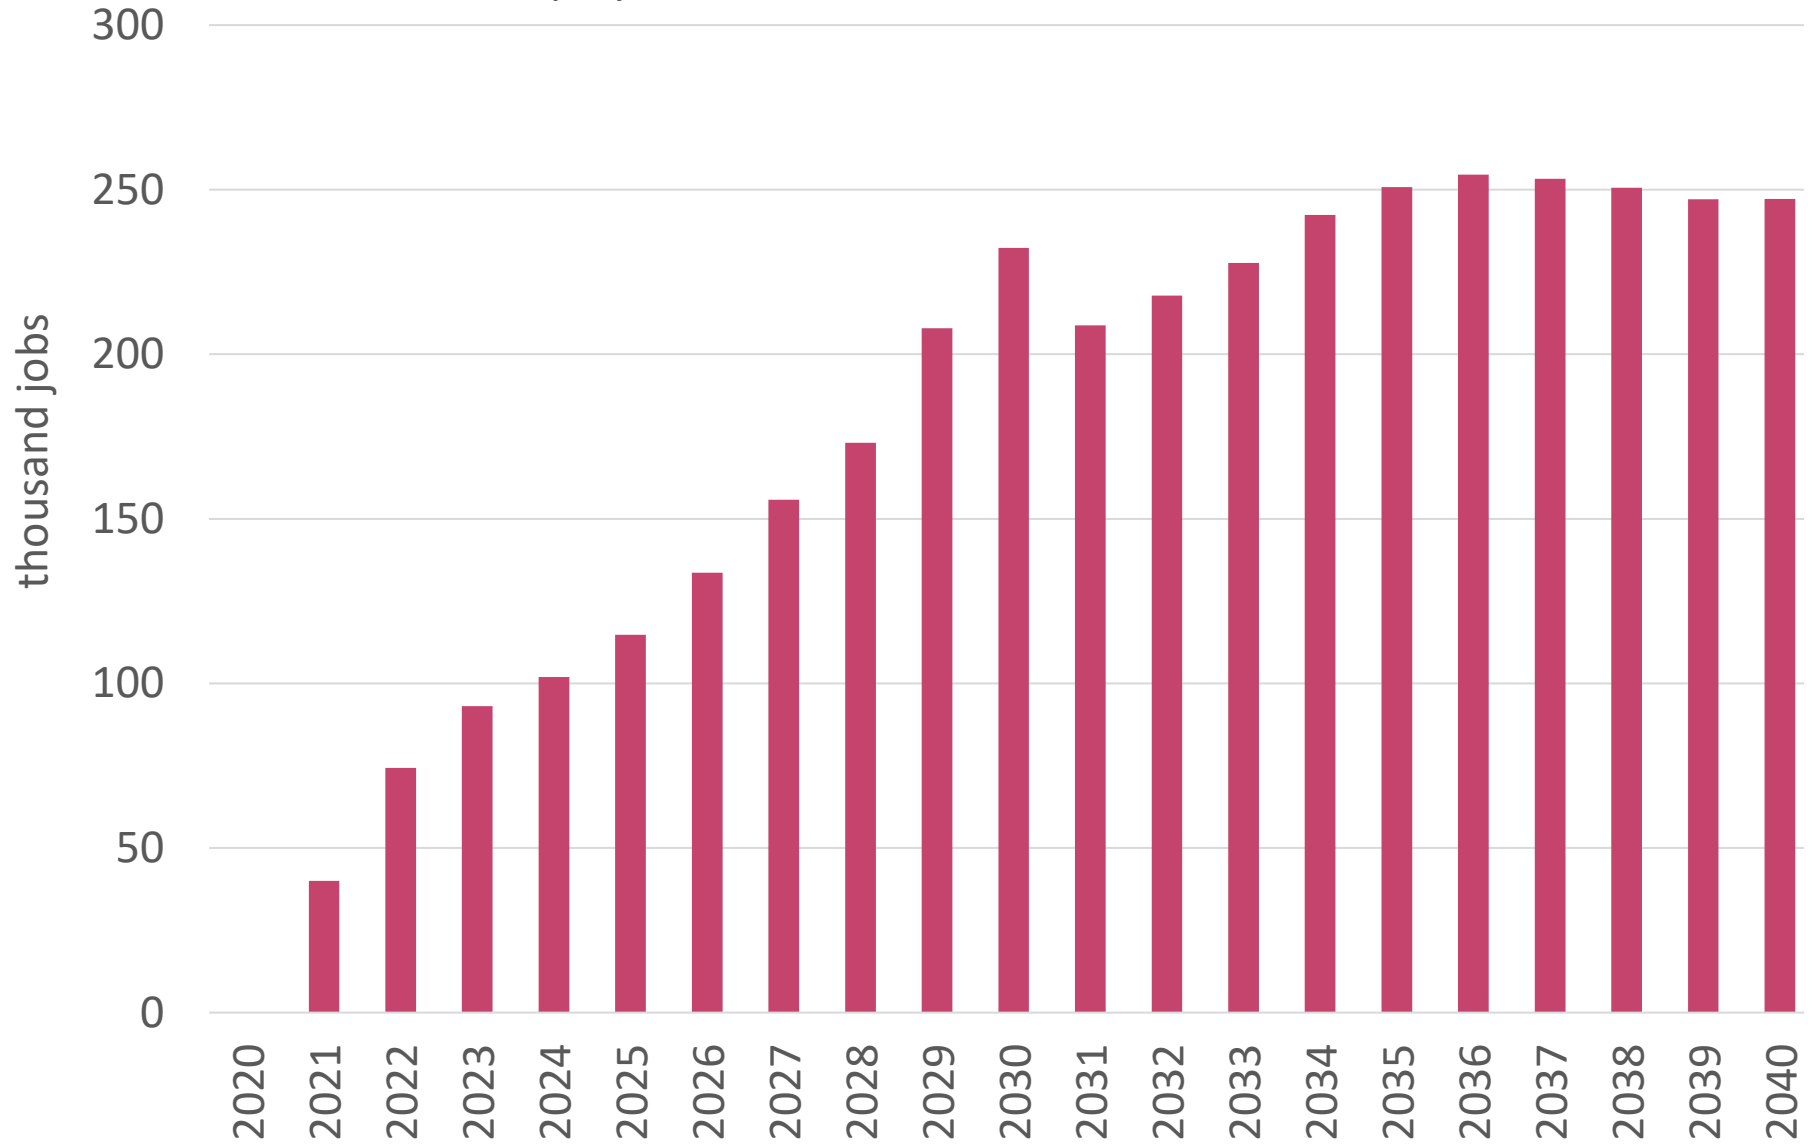

UK GDP - Absolute differences from baseline

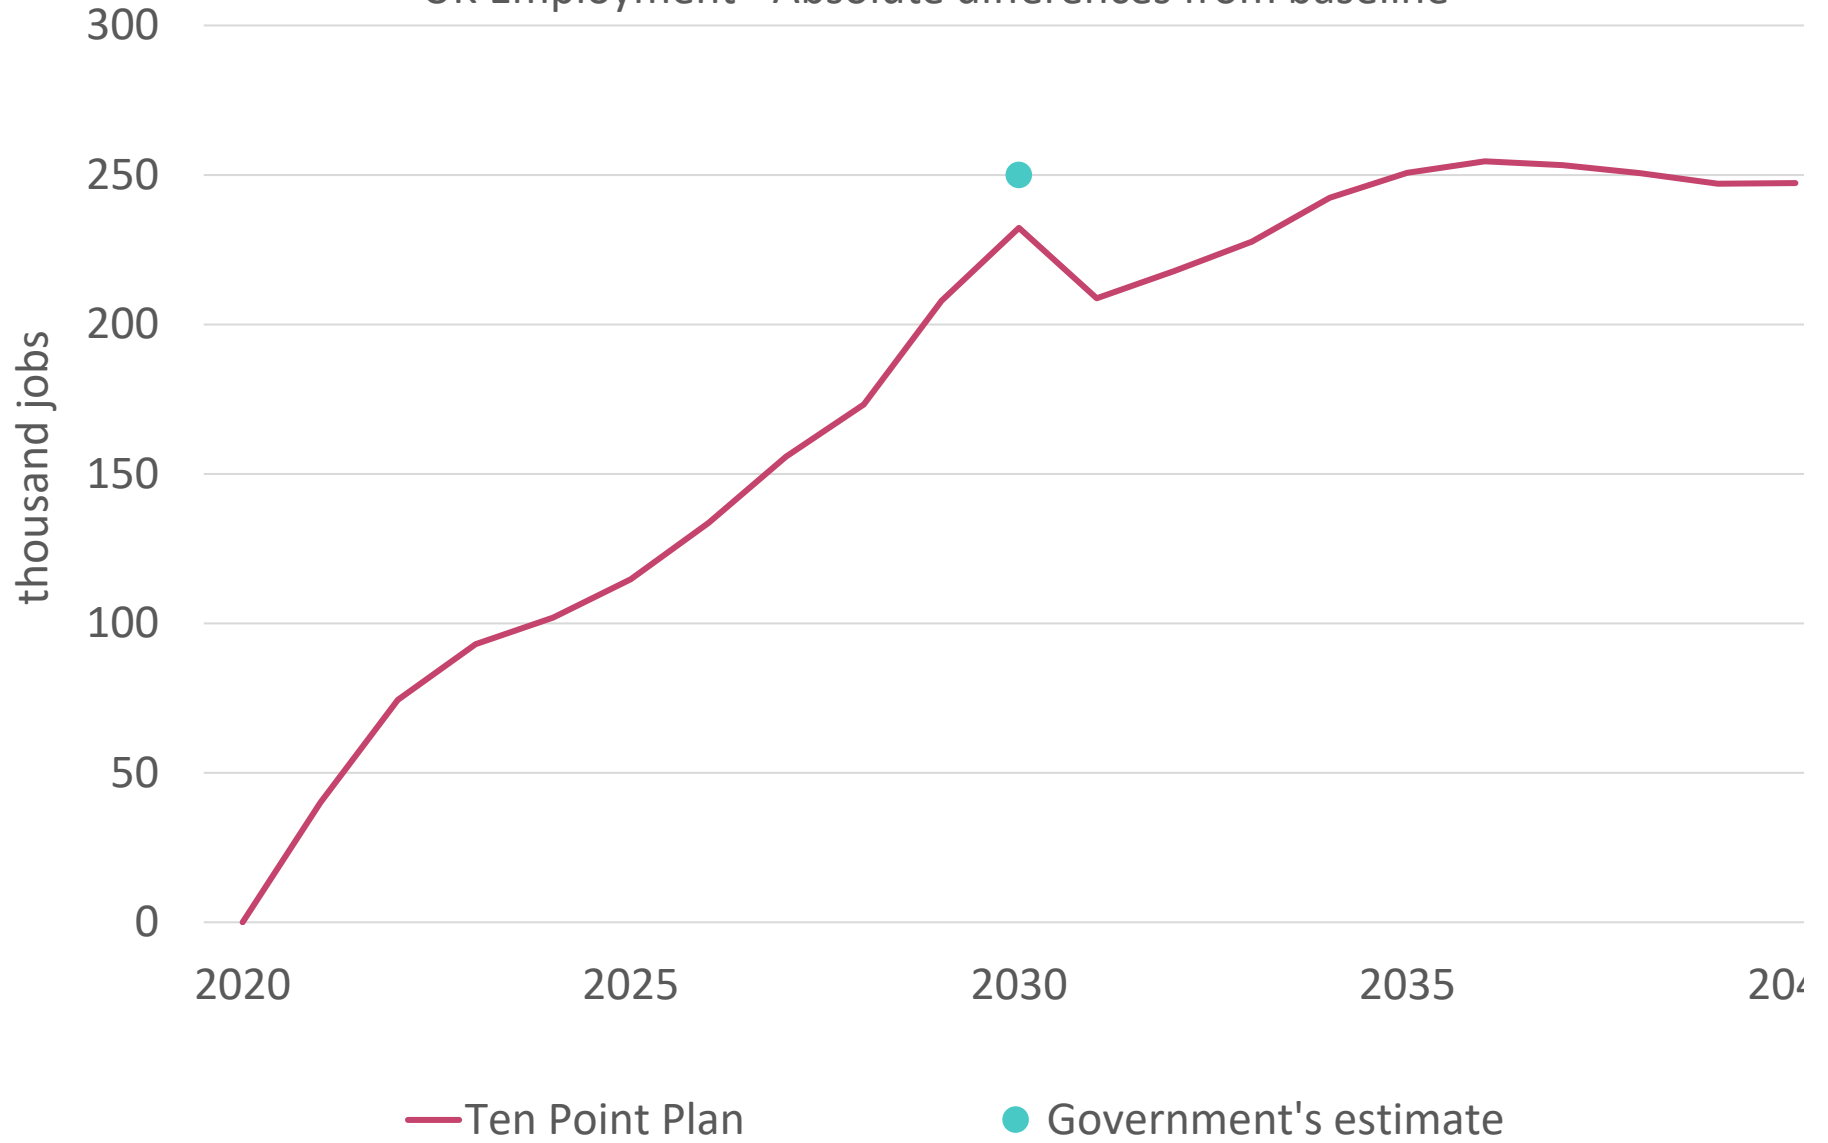

UK Employment - Relative differences from baseline

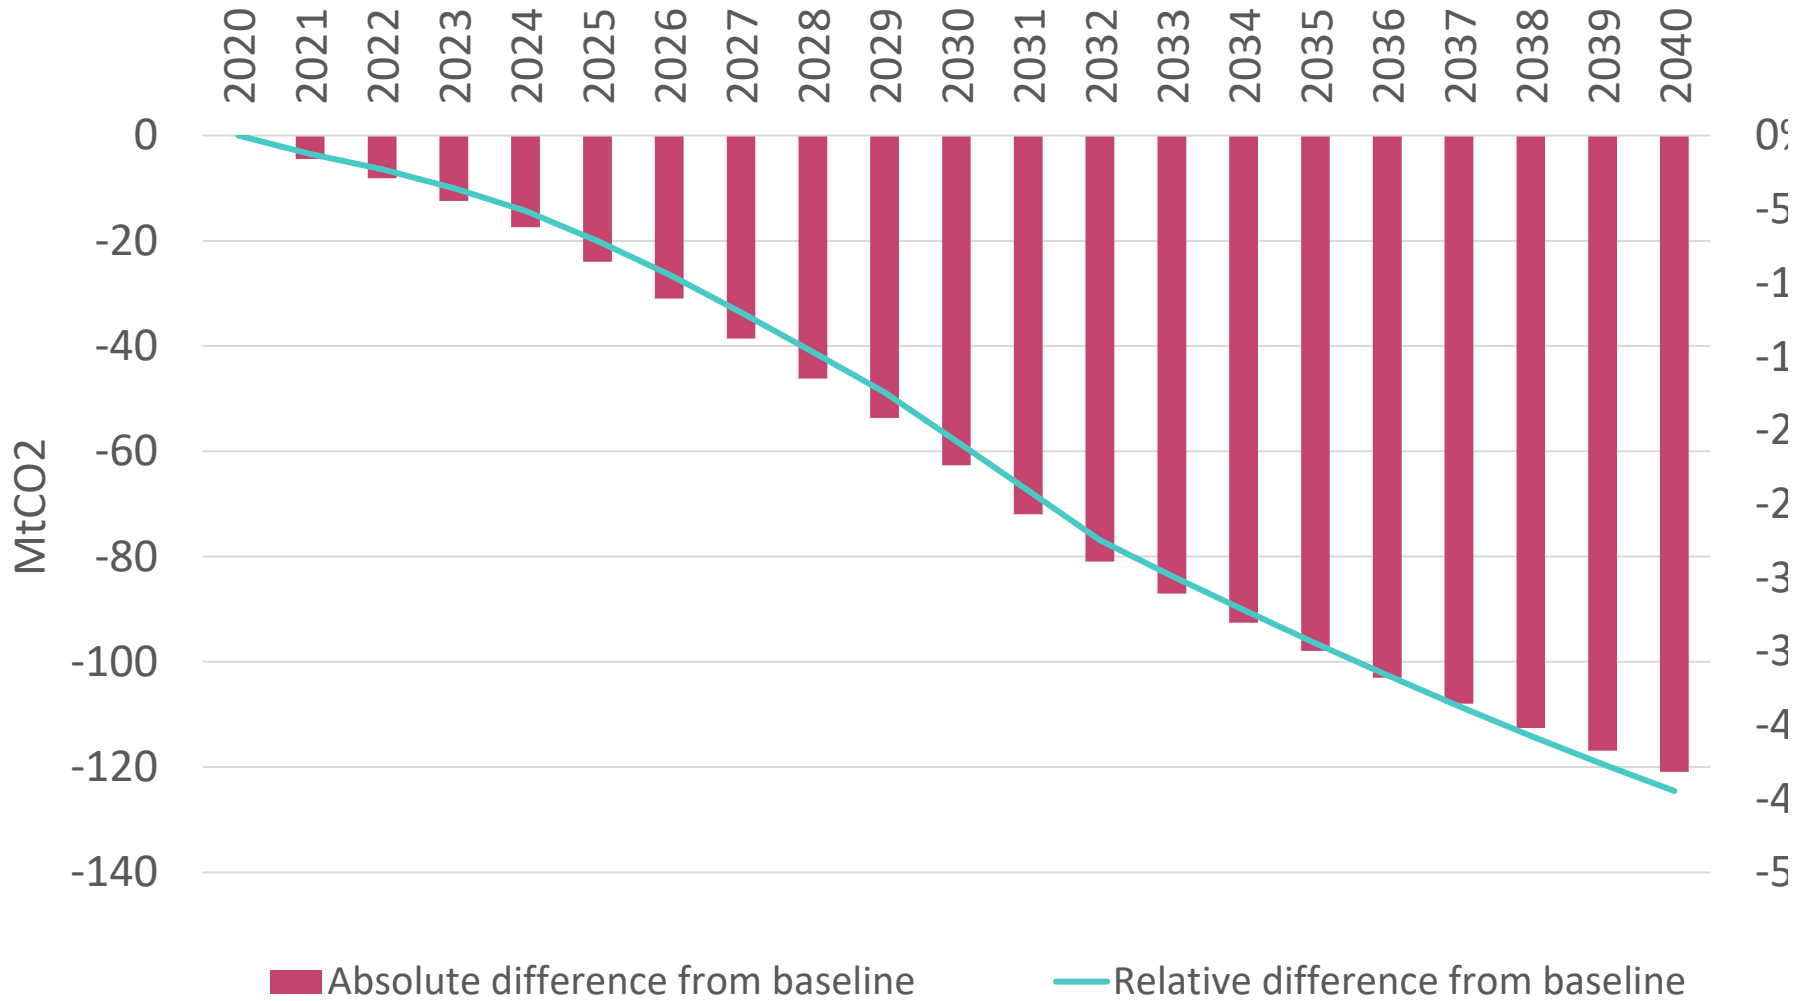

UK Employment - Absolute differences from baseline

# UK Employment - Absolute differences from baseline

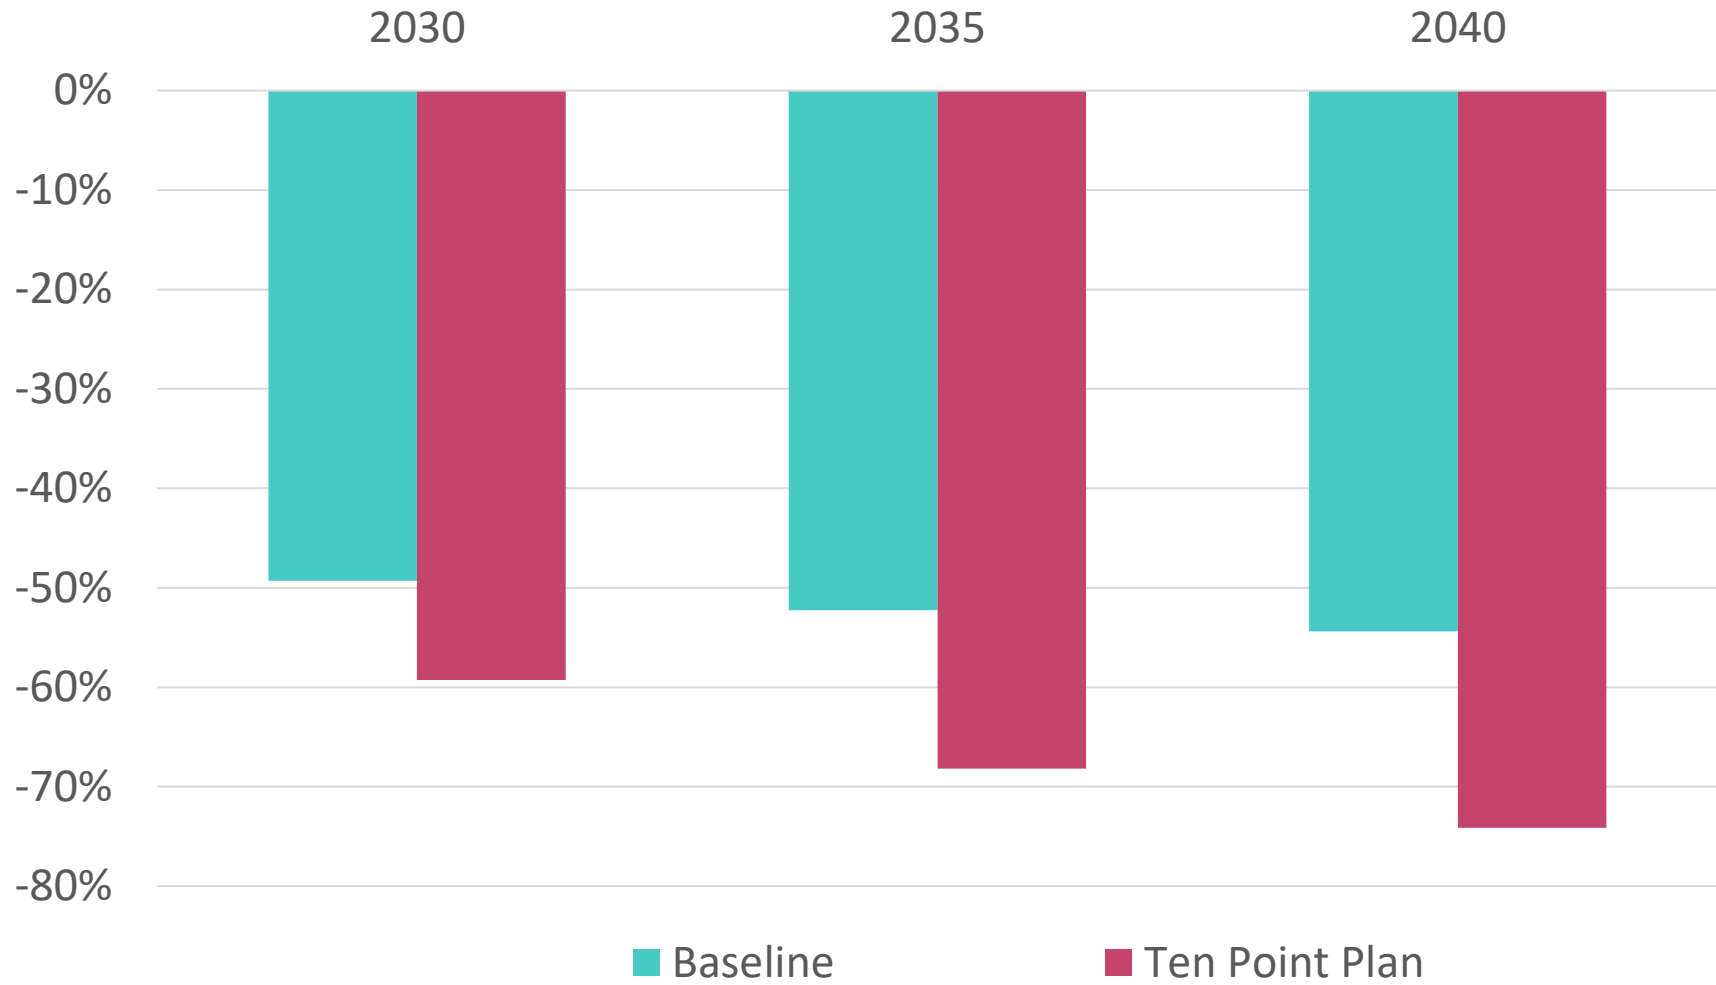

### UK CO2 emissions - Differences from baseline

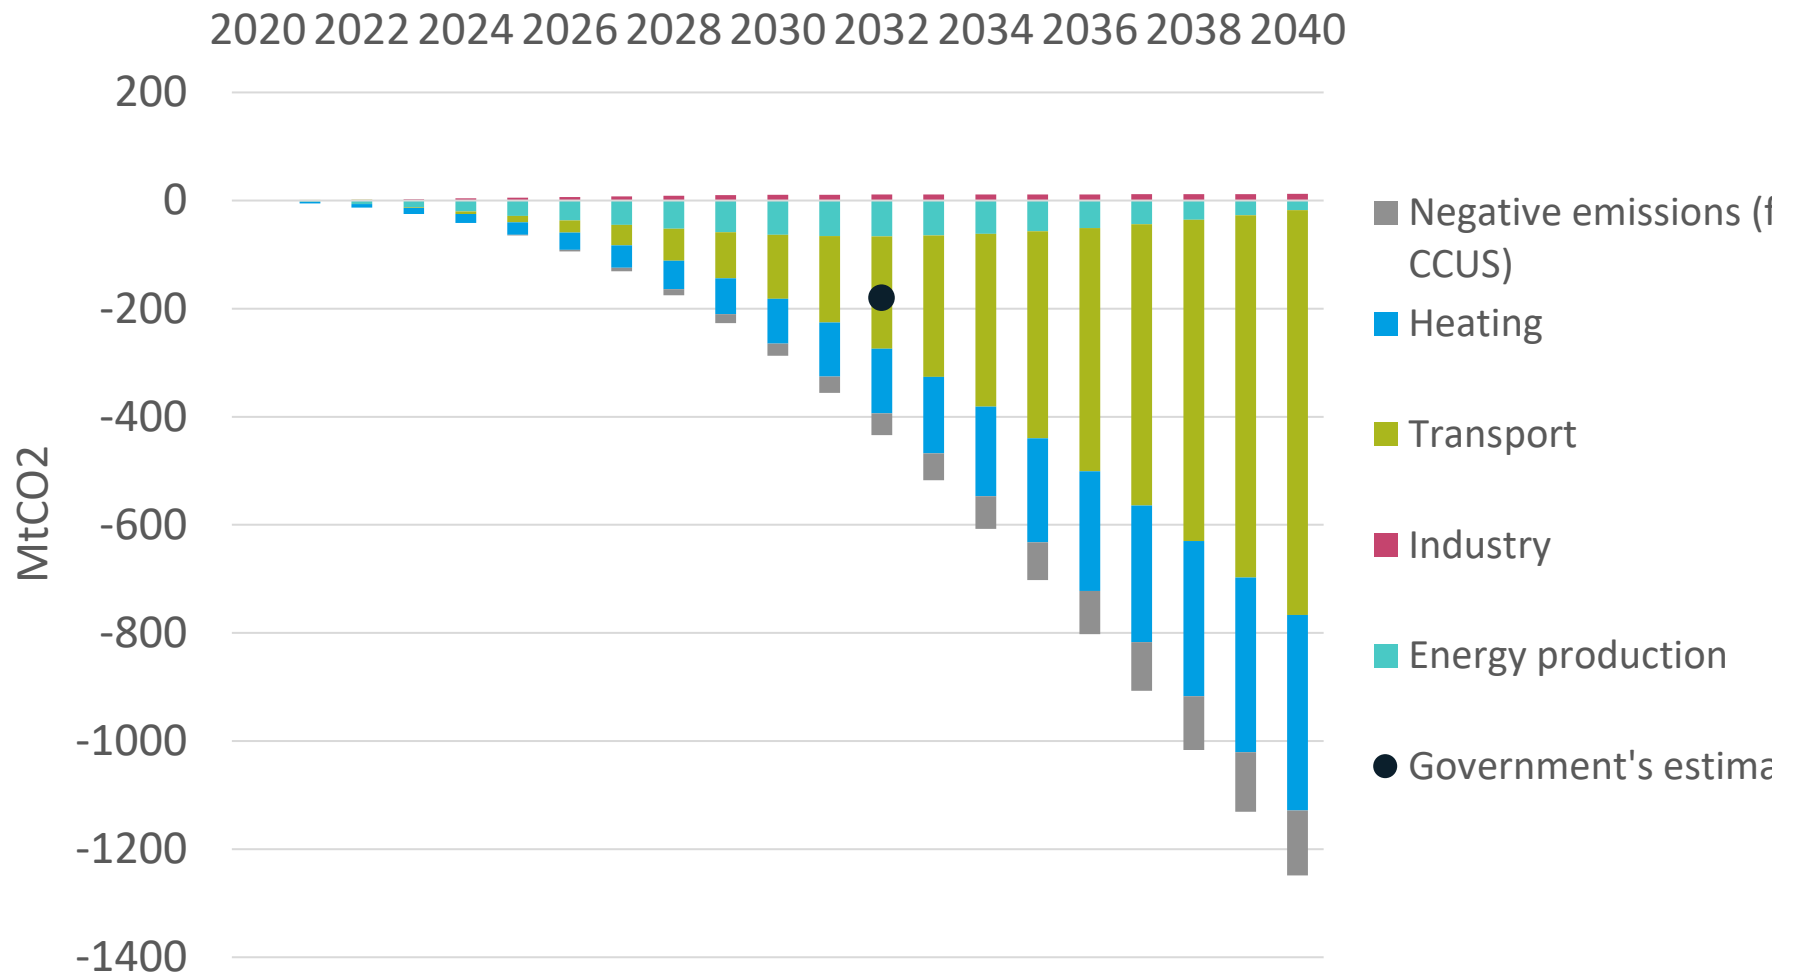

Note: Total excludes international aviation, international shipping and land use, land use change and forestry (LULUCF) emissions.

# UK CO2 emissions - Differences from 1990 levels

Note: Total excludes international aviation, international shipping and land use, land use change and forestry (LULUCF) emissions.

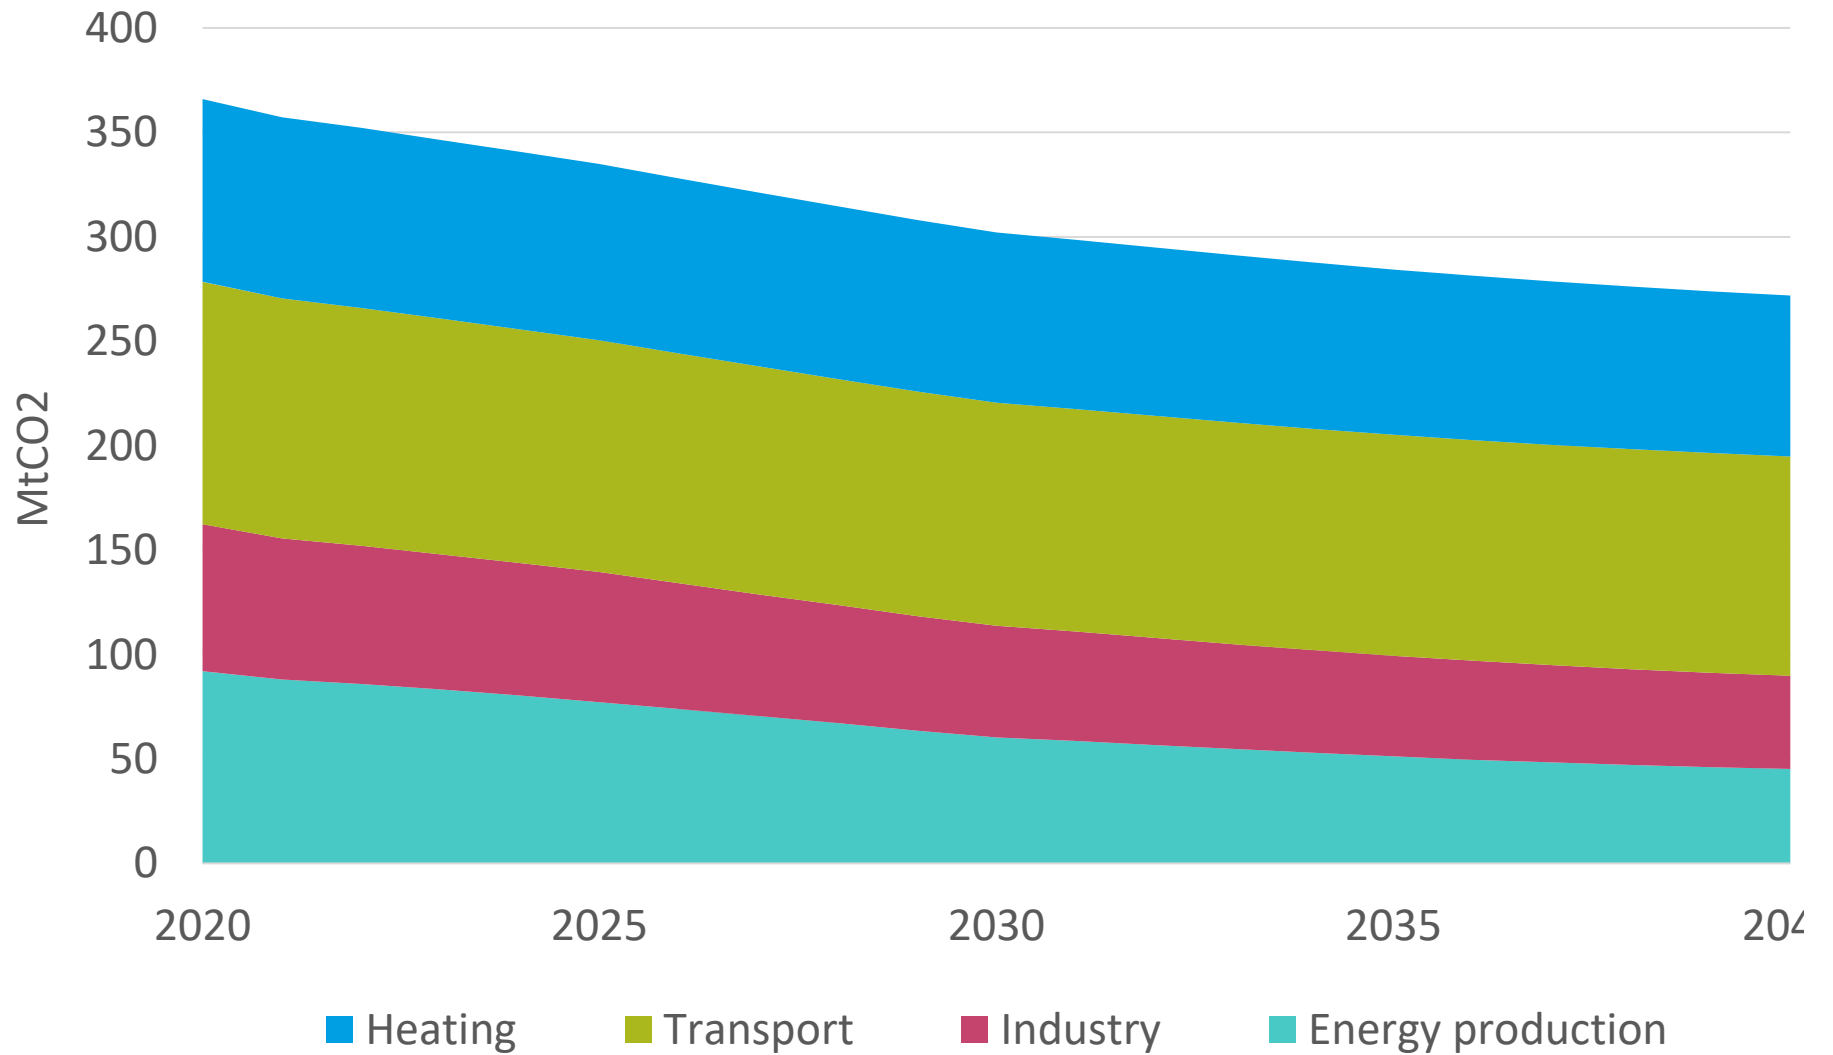

## Cumulative CO2 emission savings from the Ten Point Plan

Note: Total excludes international aviation, international shipping and land use, land use change and forestry (LULUCF) emissions.

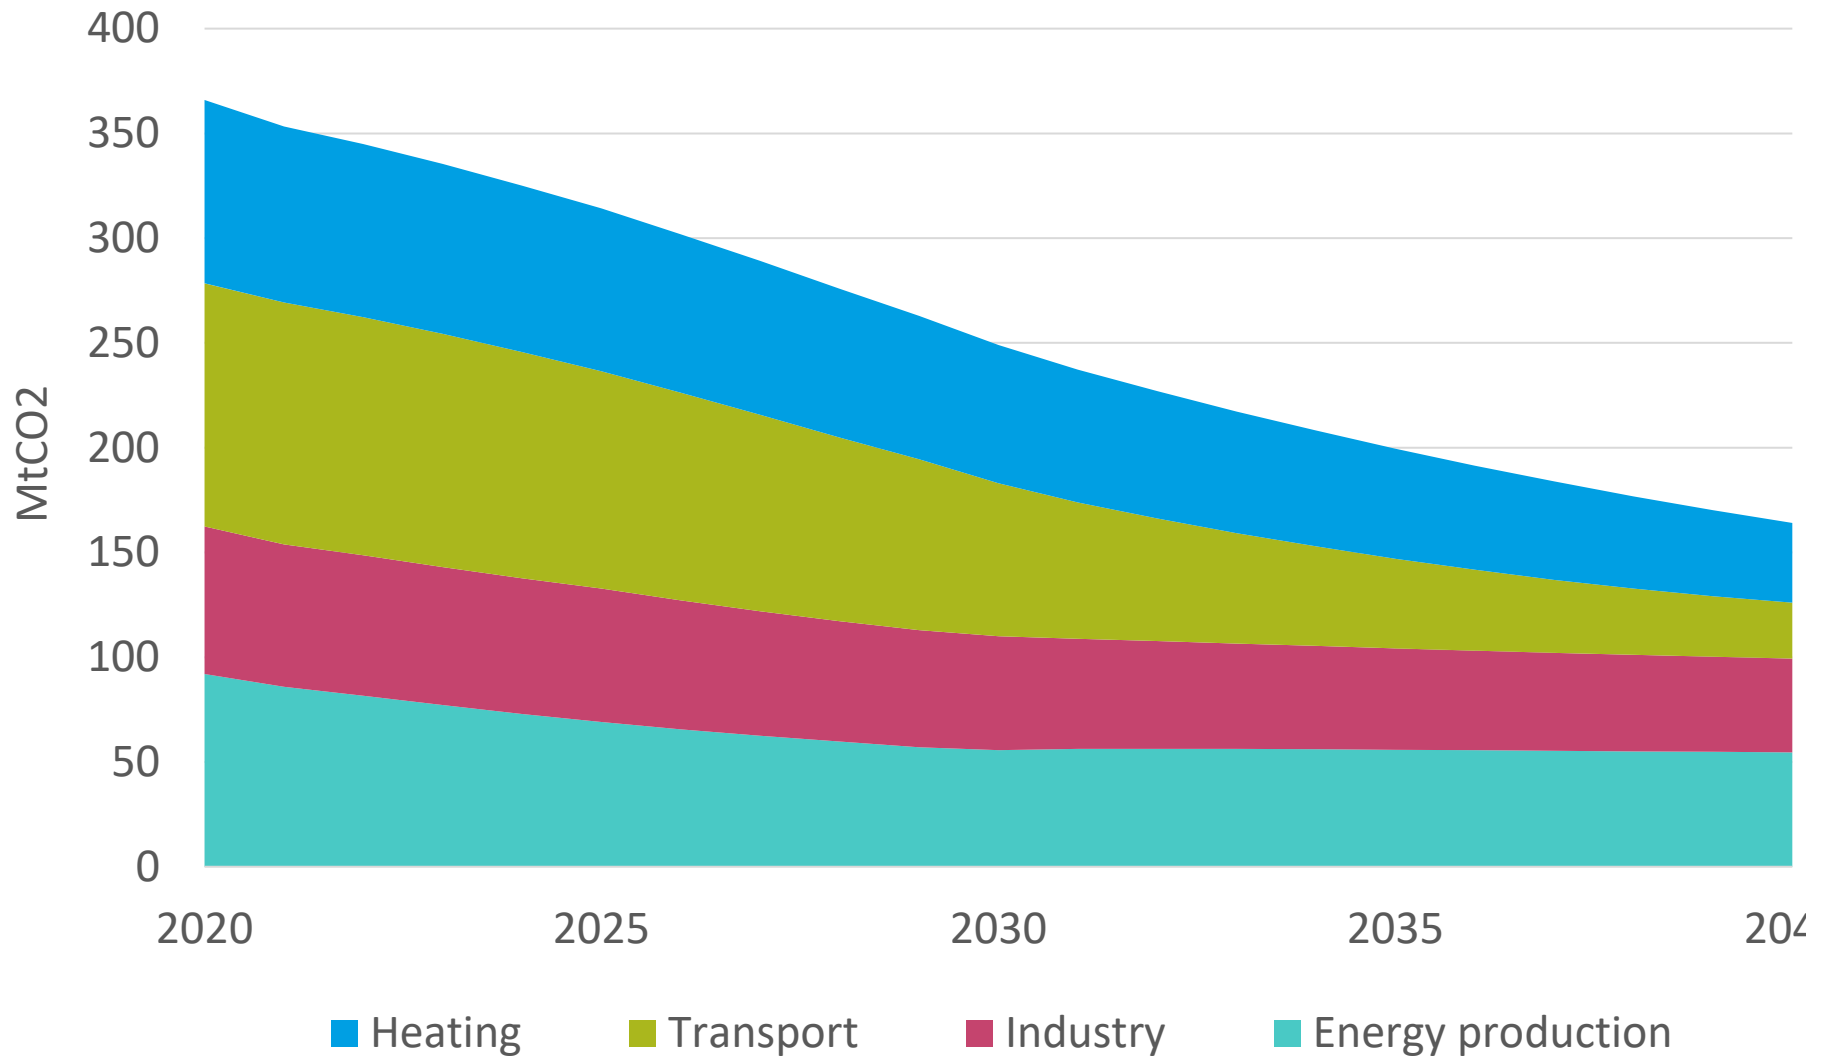

# UK CO2 emissions by sector - Baseline

Note: Total excludes international aviation, international shipping and land use, land use change and forestry (LULUCF) emissions.

# UK CO2 emissions - Ten Point Plan

Note: Total excludes international aviation, international shipping and land use, land use change and forestry (LULUCF) emissions.

**Negative emissions to be subtracted (MtCO2)**
